The decreased imports in 1854, as compared with 1853, are \$9,436,000—a very large proportion of which has accrued within the last two mouths—nearly half of it in December. There has been a general decrease in all fabrics, but the falling off is more largely in Wool and Silk than in Cotton or Flax. The decline in Cotten manufactures la very small. The business at the Clearing-House was small,

again, to-day-\$13,674,032.

We annex a list of interest payments on State, City, County and Railroad Bonds, payable by Mosers. Winslow, Larier & Co., No. 52 Wall-st., on and after Tuesday next. In view of the stringent condition of the money market which has prevailed both here and at the West for the last six months, the promptness with which the funds have been provided for the un-dermentioned payments is highly commendable and must prove extremely gratifying to Mesars. W., L. & Co., through which house these securities were nearly all originally negotiated. The amount of interest to be paid by Mesers. Winslow, Lanier & Co., is nearly a million of dollars, and that this amount of meney should be remitted in the present state of the Money market, without default, is pregnant evidence that well selected Western Securities are as safe investments as any that can be found.

A new feature in the Stock market, is the renewal of bids for Nicaragua Canal Rights, which have been entirely dead for a year past. Yesterday and to-day, \$200 were bid, and \$500 asked. This demand for Canal Rights, coincident with a decline in Transit Shares, in the face of a rising market, may moan

more than it appears to. The street, however, appears to be ignorant of what it does mean. The United States Trust Co. has been appointed Receiver of the Knickerbooker Savings Bank, by the Supreme Court.
